Effectively evaluate and buy solar power!

Do you want to buy a PV system under the "key"?
You want to buy directly from the contractor and avoid intermediaries?

Renevita Ltd. - a direct link between manufacturers and customers projects solar power capacity of 100 kW / peak to several megawatts.
We offer a full range of services for the construction of photovoltaic plants for the sale of electricity on the "green" tariff (Feed-in tariff), which is the value **0,33-0,34 €** / **kW** (for stations located on the roof / ground location).

We offer specialized solutions for the construction of solar power plants throughout Ukraine, including:
- Search and identification of land, roofs of buildings and other facilities to install stations;
- Technical and economic assessment and forecast performance;
- Design and engineering;
- The selection and procurement of equipment;
- Installation and testing of the systems;
- Operation, monitoring and maintenance.

Renevita Ltd. cooperates with the world's leading manufacturers, as well as a provider of solutions for photovoltaic, which guarantees our clients the full compliance of the project to domestic legal requirements, while ensuring that the construction of an efficient business in Ukraine.

STAGES OF DEVELOPMENT OF THE PROJECT APPROVALS AND COMMISSIONING OF

SOLAR POWER

1. Analysis of incoming information and pre-selection of equipment
2. Preparation of feasibility study and conceptual design.
3. Obtain specifications from power companies (from Oblenergo).
4. Formation of the final specification for the system.
5. Preparation of the executive and the permits for the start of construction.
6. Develop and coordinate a working draft.
7. Development and approval of the draft AMR.
8. Construction of the station.
9. Putting the station in operation territorial power companies.
10. Preparation of as-built documentation of the finished building.
11. Obtaining a license for the production of electricity in the NERC.
12. Obtaining a "green tariff" in NERC.
13. Memberships in Agreement between the members of the Wholesale Electricity Market of Ukraine (Entry into the wholesale electricity market).
14. Connecting the AMR system to State Enterprise Energy Market.
15. The signing of the contract of sale of electricity with SE Energy Market.
16. Join AMR in SE Energy Market.

PV-power plant construction occurring concurrently with obtaining permits, upon approval of the detailed design.
Renevita Ltd. provides the most efficient execution of many of the steps at the same time to reduce the turnaround time.
